Hi Mark/Marco,

I just wanted to send a quick note re. Emergencies Act. I have spent the weekend in my riding and the feedback I have received is positive. Constituents wanted to see a resolution to the situation in Ottawa and elsewhere and are happy to see blockades/occupation end.

What I just want to say is I think it's important for us to communicate a timeframe of when we will revisit the decision (I.e. 10 days-2 weeks etc.) to set the expectation that we will revisit whether the justification threshold under the Act is still met. (I am cognizant we want to keep tools to prevent blockades from re-establishing).

You're both doing a great job and I know you have a ton on your plate, I just felt compelled to send you a quick note with my perspective from here in NS.

Best Regards,
